Laser Surgery Consent Form

Advances in veterinary medicine and LASER SURGERY now make LASER use during surgical procedures available to our clients and their pets. We continually strive to provide the best possible care for you pet. We feel that Laser surgery helps us achieve that end. The main reasons we feel that LASER SURGERY helps us provide the best care are as follows:

1. The LASER produces **little or no blood loss** for your pet because the LASER seals the small blood vessels.
2. The LASER produces **less post-operative pain** for your pet because the LASER seals the lymphatics and blood vessels.
3. The LASER produces **little or no swelling** at the surgical site because the LASER seals the nerve endings.
4. The LASER allows very **precise removal** of tissue.

I understand that LASER SURGERY is an option for my pet, and I have been advised of the advantages this procedure will offer.

_____ YES, I understand the benefits and want my pet to have LASER SURGERY.

Additional cost of Surgery \$_____.

_____ NO, I do not want my pet to have LASER SURGERY
